SUMMARY

Creative and detail-oriented Jewellery CAD Designer with experience in designing and developing jewellery models using Rhinoceros (Rhino) and Matrix software. Skilled in creating accurate 3D jewellery designs, converting concepts and sketches into detailed CAD models, and preparing designs suitable for manufacturing. Strong understanding of jewellery design, proportions, detailing, and production requirements. Passionate about creating innovative, precise, and visually appealing jewellery designs.

WORK EXPERIENCE

Fortuna Retail Private Limited

March 2022 – Aug 2026

- Created detailed 3D jewellery designs and models using Rhinoceros (Rhino) and Matrix software based on sketches and client requirements.
- Developed accurate designs for rings, earrings, pendants, bracelets, and other jewellery products, ensuring proper proportions and detailing.
- Modified and optimized CAD designs according to manufacturing requirements, maintaining accuracy, quality, and production feasibility.

Lavish cad studio

Sept 2021 – feb 20221

- Assisted in creating 3D jewellery designs and basic CAD models using Rhino and Matrix software.
- Learned jewellery design techniques, including stone setting, detailing, proportions, and design modifications.
- Supported senior CAD designers in editing, refining, and preparing jewellery models according to design and manufacturing requirements.
- Gained practical knowledge of converting 2D jewellery sketches into accurate 3D CAD models while maintaining design details and measurements.
